DETAILED ACTION

1. In response to the restriction requirement filed on 11/30/2005 is not fully responsive to the prior Office action because the elected species is not embraced by claim 1. Note that R_2 is $-UV$, where U is a moiety providing 1-6 atom separation between V and the ring. The elected species (Example 6, page 115) does not have a linker (i.e. $V = 0$). Applicants elected the same species as it was done in a related case 10/809,635.

Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a).
